

## MAJORITY MAY LOSE THEIR VOTES

Clerk Eldredge Asks All Citizens to See That They Are Registered.

MAY BE MANY MISTAKES

CHANGE IN BOUNDARIES OF DISTRICTS IS THE CAUSE.

Many persons in Salt Lake may be deprived of their right to vote this fall unless they take precaution to see that they are properly registered. County Clerk J. U. Eldredge, Jr., pointed out yesterday that it was necessary for the voters in all the districts in the city to visit the registry agents in their districts and see that they are registered.

Persons who voted either in the election of 1904 or of 1905, and who have not since changed their residence, need not register again; but a few weeks ago the number of voting districts in Salt Lake was reduced, owing to the adoption of voting machines, and the poll books, with the addresses which they contained, were the only data which the clerk had in making out new poll books. The new books have been transcribed, and an effort made to see that every name is placed in the new district in which it belongs.

Mr. Eldredge fears, however, that numerous errors have been made in transcribing. He also points out that it is wise for people who think they are properly registered to ascertain that fact, lest they have unwittingly done something to disqualify themselves from voting without subsequent registration.

May Register Today.

Voters may register today, from 8 o'clock a. m. to 5 o'clock p. m. Following is a list of the registry agents and their addresses in Salt Lake county:

District 1—Charles E. Beers (R.), 1455 Seventh East.

District 2—Fred S. Sanford (R.), 1425 South Eleventh East.

District 3—John Seager (R.), 804 East Seventh South.

District 4—Mrs. Ida B. Rasmussen (R.), 606 East Sixth South.

District 5—George Bowles (R.), 656 South Fourth East.

District 6—Adella M. Eardley (R.), 621 South Main.

District 7—O. C. Brown (R.), 27 East Sixth South.

District 8—Mrs. Lulla Langenbacher (R.), 347 East Fifth South.

District 9—William T. Knapp (R.), 446 East Fifth South.

District 10—Ella McAllister (R.), 511 South Eighth East.

District 11—E. J. Swann (R.), 218 South Tenth East.

District 12—John McNeil (R.), 1912 South First West.

District 13—Douglas Ferguson (R.), 693 South West Temple.

District 14—Helen I. Cowan (R.), 641 South Third West.

District 15—William H. Marsh (R.), 375 Nevada street.

District 16—Carl J. Larson (R.), 524 South Sixth West.

District 17—J. G. Curtis (R.), 513 South Fourth West.

District 18—John E. Cowley (R.), 439 South Second West.

District 19—Emily Fox (R.), 157 West Third South.

District 20—C. L. Rooks (R.), 37 South Second West.

District 21—Lincoln E. Mahle (R.), 229 South Fourth West.

District 22—Mrs. Mary Ann Griggs (R.), 26 South Fifth West.

District 23—Mrs. Elizabeth E. Davis (R.), 41 North Fifth West.

District 24—Mrs. Bell White (R.), 41 North Second West.

District 25—James M. Campbell (R.), 118 West First North.

District 26—Martha R. Hackwell, 81 Glen street.

District 27—Alexander Edward (R.), 133 Center street.

District 28—Joseph N. Lees (R.), 619 West Fourth North.

District 29—John C. Sandberg (R.), Superior addition.

District 30—Mrs. Bertha M. Gray (D.), 80 Third street.

District 31—Mary Kelly (R.), 325 Second street.

District 32—Anne Higham (R.), 759 Second street.

District 33—John A. DeValley (R.), 1133 First street.

District 34—E. G. Hoffman (D.), 587 Fifth street.

District 35—Mrs. Florence M. Horsley (R.), 224 F street.

District 36—Nellie Edwards (R.), 47 East First South.

District 37—C. O. Farnsworth (R.), 435 East Third South.

District 38—Mrs. Jettie Browning (R.), 455 East Third South.

District 39—Mrs. Lizzie Felt (R.), 119 South Seventh East.

District 40—Henry Coulam (R.), 77 East First South.

District 41—Harry F. Earle (R.), 155 South Tenth East.

Next Saturday will be the last day for registration before

"Model" Machines Here.

Fifty-one "model" voting machines arrived yesterday. These are the baby machines which are to be used for the instruction of voters prior to the time they are on the machines themselves. One of these will be sent Saturday to each registry agent in the city and a number of others with others will be sent to various places in the city, so that as many voters as possible will become familiar with the machine before election day.

The voting machines are to be here by Sept. 15, and Mr. Eldredge expects a number of them in conjunction places about town before election day.

SALLOW FACES

Often Caused by Coffee Drinking.

How many persons realize that coffee so disturbs digestion that it produces a muddy, yellow complexion?

A tea day's trial of Postum Food Coffee has proven a means, in thousands of cases, of clearing up bad complexions.

A Washington young lady tells her experience.

"All of us—father, mother, sister and brother—had used tea and coffee for many years until finally we all had stomach troubles more or less.

"We were all sallow and troubled with pimples, break head, disagreeable taste in the mouth, and all of us simply so many bundles of nerves.

"We didn't realize that coffee was the cause of the trouble until one day we ran out of coffee and went to borrow some from a neighbor. She gave us some Postum and told us to try that.

"Although we started to make it, we all felt sure we would be sick if we forced to try Postum and were surprised to find it delicious.

"We read the statements on the pkg., got more and in a month and a half you wouldn't have known us. We were all able to digest our food without any trouble, each one's skin became clear, tongues cleaned off and nerves in fine condition. We never use anything now but Postum. There is nothing like it."

Name given by Postum Co., Battle Creek, Mich. Read the little book "The Road to Wellville."

"There's a reason."

## COOLIE LABOR FOR THE CANAL

Commission Sends Out Specifications for Bids From Dealers in Yellow Slaves.

HAVE TO WORK TEN HOURS

GOVERNMENT NOT RESPONSIBLE FOR ACCIDENTS.

Washington, Aug. 20.—Specifications for bids to furnish Chinese labor for the construction of the Panama canal were issued today by the isthmian canal commission. The basis for bidding is for 2,500 coolies, although it is made clear that the commission may call for such additional numbers of Chinese laborers as it may need, should the experiment be successful, but the number shall not exceed 3,000 per month. All proposals must be received not later than 10 a. m., Sept. 20, at which time they will be opened. The usual conditions regulating the competitive bidding for government supplies is prescribed by the specifications.

Must Put Up \$50,000.

Individuals, co-partnerships or corporations competent to fulfill the terms of the proposal will be permitted to bid, but the proposals must be accompanied by a certified check or by a bond for \$50,000. The bond of the successful bidder will be advanced to \$100,000, which will be forfeited if he should fail to enter into a contract. Proposals are to be expressed in terms of hourly wages, payable in gold currency of the United States or its equivalent, for the labor of not less than 2,500 Chinese for a period of not less than two years, which may be extended. Chinese laborers will be required to work ten hours each day. Overtime will be paid in excess of ten hours, and for all the work upon Sundays or holidays at the rate of time and a half. The holidays recognized are Jan. 1, Feb. 22, July 4, Nov. 3, Thanksgiving day, Dec. 25 and the first and last days of the Chinese New Year.

Government Not Responsible.

Extra precaution has been taken by the commission in its specifications to provide against liability for damages or indemnity on account of the death or disability of any laborer or employee by accident or disease. The contractor must accept the responsibility for any such damages maintained by legal claim.

Laborers coming under this contract will be provided free of charge with lodgings, fuel for cooking purposes and medical treatment when sick. No wages shall be paid to any laborer, however, during illness or absence from work, either in quarters or in hospital.

Contractors must deliver the Chinese coolies at either Cristobal, on the Atlantic, or La Boca, on the Pacific coast.

The full number of laborers to be furnished under this initial proposal must arrive within the isthmian canal zone on or before Jan. 7, 1907, or within three and one-half months from the time the award is made. Any individual laborer may be discharged at any time for cause by the chief engineer of the canal work, and when discharged must be deported by the contractor.

More May Be Needed.

Proposals to furnish coolie labor must include the transportation of laborers to either of the ports in the canal zone. In addition to the bids to supply 2,500 laborers, the bidders are required to supply food for each of the additional 1,000 laborers that may be required by the commission.

Laborers are desired from the southern provinces of China, and such persons only will be accepted as have been accustomed to climatic and physical conditions as nearly similar as may be experienced on the isthmus of Panama.

No laborers will be accepted who have been brought from any part of the Hawaiian Islands.

Exacting regulations will be made as to the personal identification of each Chinaman coming within the zone. The contractor is required to give security to the republic of Panama that Chinese laborers and families shall be promptly deported upon completion of their terms of service.

Hay Fever and Summer Colds.

Victims of hay fever will experience great benefit by taking Foley's Honey and Catarrh Remedy.

Immediately and heals the inflamed air passages, and even if it should fail to cure you it will give instant relief. The genuine is in a yellow package. F. J. Hill Drug Co., the never substitutes.

By steamship Deutschland via Hamburg and New York, carload "Pilsner Beer" and "Munchner Hofbrau." Karl H. Mayer, The Heidelberg.

SAYS DOCTOR MADE BLUNDER

E. J. Redmond Sues Smelting Company for Alleged Error of Physician.

Alleging that he has been ruined for life physically as the result of an error of Dr. W. H. Rothwell, E. J. Redmond yesterday sued the American Smelting & Refining company for \$10,000 damages.

The smelting company, he alleges, engaged Dr. Rothwell to attend to his case.

The complaint, which was filed in the district court, alleges that Redmond was suking from the company at the city smelter last January, when he was taken ill. Dr. Rothwell was called by the company and diagnosed his disease as typhoid fever, and operated upon him for it. As a matter of fact, he alleges, he was suffering from malignant black diphtheria.

The operation, he says, caused a large amount of poisonous matter to enter his system. He charges that his lower limbs have become paralyzed and that he is permanently incapacitated from earning a living.

NO WATER FROM PARLEY'S.

Its Muddy Color Causes Mr. Hines to Shut It Off Temporarily.

The entire city is being supplied with water from City creek. The cloudburst in Parley's canyon Sunday caused the water from the Parley reservoir to resemble mud, and the city mains, which draw from sections of the city supplied by the Parley reservoir were practically deprived of a water supply.

Yesterday Superintendent Frank L. Hines turned off the connection between the Parley reservoir and the city mains, and turned the City creek water into the entire city distributing system. He will keep it turned off until the Parley reservoir settles.

## BOOM FOR LA SAL.

Big Operators Have Decided to Cut Loose in the District.

Big doings by big men is now promised for the La Sal region and everything now points to making of some of the biggest mines in the state and the building of railroads to handle the traffic that it is believed the much-talked-of country will soon be offering. A powerful combination of eastern talent has been rounded up by J. H. Dalton of New York, and several months since undertook the consolidation of the Drego La Sal and International companies, and under the work was started under the option held by Dalton on the two properties and such a showing has since been made that he has just been decided to spend a large sum of money in further development and the prospecting of all the mines in the district.

Such is the news brought up from camp by Samuel N. King, one of the big men in the international company, after a trip of inspection with Mr. Dalton and an engineer who is still at camp making a thorough examination of the properties in the interests of Mr. Dalton and his associates. Mr. King added that so well pleased was Mr. Dalton with the appearance of the properties that he stated he had no notion of waiting for the report of his expert, being satisfied to go ahead, and left positive instructions with Mr. King to do so.

This is not the only proposition that is now receiving serious consideration, as the men behind Mr. Dalton in his deal are all from the ranks of the wealthiest operators of Utah country, men who are clear that, if the proposition pans out as it gives every evidence of doing, the usual conditions regulating the competitive bidding for government supplies is prescribed by the specifications.

In this connection, however, Mr. King heard good news while in Colorado the other day. He found out that a powerful company is now planning a road to run down the Colorado river, and an enormous agricultural and ranching country. This line, if built, Mr. King says, will benefit all the operators to a great extent, he expects its building to result in much more activity than the district has ever known.

The High Ore property is being steadily worked and an excellent showing is being made by the Colorado Coal and Iron company, which last year and paid \$30,000 spot cash for the property.

Adjoining the High Ore, Jack Beesley of Provo, Mr. King says, has a number of claims that are turning out big. He has an eighteen-inch vein of fine silver lead ore and about twenty inches of 10 per cent copper rock, as well. Other properties are making fine records and the camp appears to be right on the verge of a genuine boom.

Utah Stocks in Boston.

Following is the list of Utah and other stocks traded in on the Boston exchange yesterday showing the range of prices and the number of shares sold.

Accompanying the report which was furnished by James A. Pollock & Co., is the market letter of Paine, Weber & Co., as follows:

Boston, Aug. 20.—Oscillations in the market today to 112 and certainly justifies our predictions. The whole market was very quiet today and has been since the market was only what could be expected, and we feel confident of higher prices tomorrow. We expect to see a leader in the market tomorrow.
